

By selecting @thebostoncoatcompany as the example Page, people can automatically visit my Page at fb.me/thebostoncoatcompany or message me at m.me/. However, I want people to be able to see that I am one of @thebostoncoatcompany. How can I achieve this without being able to change my email address? Is there another way to add a link to your Page without adding it as an email address? Thanks to Unfortunately, there is no way to do this unless you want to make your email address public. The Boston Coat Company does not have the ability to make the email address public.
